

BIO EYES

Eyes Contour Cream

Smoothing Revitalizing
Bio- Stimulating

Segment

HOME SKIN CARE: Smoothing and firming moisturizing eye cream.
Code D15, Vol. Flacon 30 ml.

Product structure

Cream with valuable light structure, is spread easily and absorbs quickly leaving a pleasant sensation of softness, paraben-free with no fragrance allergens.

Product characteristics

BIO-EYES: Is the ideal product to regenerate and bio-stimulate tissue in the eye area. Two PHAs gluconolactone and lactobionic acid are associated with particular AHAs, the malic acid and lipoic acid to support a restructuring and rejuvenation of both epidermal and dermal. In addition, substances of natural extraction and hyaluronic acid facilitate the recovery of surface hydration.

Benefits

Revitalizes the metabolic mechanisms regeneration, improves cell turnover, improves cell cohesion and hydration, instantly gives smoothness and softness to the touch, bio-protective and antioxidant action, anti-wrinkle smoothing action.

Active substances

PHAs: Substances with multiple properties capable of acting on the bond strength of corneodesmosomes preserving and restoring proper cellular metabolism of the corneocytes (Stratum Corneum). It has strong moisturizing properties, counteracts oxygen free radicals, improves the barrier function, especially in sensitive skin and improves skin texture.

MALIC ACID: Enhances the biological mechanisms, optimizes energy production in cells.

LIPOIC ACID: A powerful antioxidant and hydroxyl free radical scavenger. Lipoic acid is capable of preventing the ascorbic acid oxidation and of inhibiting lipid peroxidation catalyzed by copper. It's water and fat soluble which makes it possible to reach into different layers of skin cells.

HYALURONIC ACID: It has strong rehydrating properties which make the Stratum Corneum soft and flexible, it helps reinforce the skin barrier enabling it to combat harsh external aggressions, it improves cell cohesion and promotes the regenerative mechanisms of the epidermis.

CHAMOMILE: Has soothing emollient purifying properties.
