

BIO SOFT Face Cream

Smoothing
Invigorating

Segment

HOME SKIN CARE: Cream for the first signs of aging.
Code D07, Vol. Small jar 50 ml.

Product structure

Soft cream, precious and pleasant structure from a sensory point of view with no parabens, allergens-free fragrance.

Product characteristics

BIO-SOFT: Special cream suitable for delicate and sensitive skin, it facilitates renewal of the skin and structural skin barrier reinforcement. It contains a mix of substances that revitalize different metabolic mechanisms, combating the first signs of aging and reinforcing the skin barrier against external aggressions.

Benefits

Prevents loss of skin tone and elasticity, making your skin smoother and helping you achieve a uniform skin tone. The skin is better protected, hydrated and rebalanced with a skin barrier reinforced.

Active substances

PHAs: Substances with multiple properties capable of acting on the bond strength of corneodesmosomes preserving and restoring proper cellular metabolism of the corneocytes (Stratum Corneum). It has strong moisturizing properties, it counteracts oxygen free radicals, improves the barrier function, especially in sensitive skin, improves skin texture.

N.S.L.E. (Natural Skin Lipid Equivalent): Dermo-compatible formula which helps regenerate the lipid film and makes the skin more resistant to external aggressions.

OLIGOPEPTIDE+TETRAPEPTIDE-7: Matrikines able to activate certain genes involved in ECM (Extra Cellular Matrix) renewal mechanisms and cell proliferation. They activate neosynthesis of type I-IV collagen, fibronectin and GAGs. It improves tone and elasticity of the skin.

SOLAR FILTERS: Medium protection against UVA-UVB.
