Moisturizing
Revitalizing

Segment

HOME CARE: Moisturizing, revitalizing physiological body-shower.
Code CD 07 , Vol. Tube 200 ml .

Product structure

Cleansing gel without SLS and SLES, allergen-free fragrance.

Product characteristics

BODY SHOWER: Physiological body-shower for frequent use which allows optimum cleaning of the skin without altering the hydro-lipid film that is the main cause of dryness and roughness of your skin. Leaves your skin soft and hydrated.

Benefit

- Cleanses the skin without altering the hydro-lipid film.
- Helps to preserve and regain skin hydration.
- Preserves skin elasticity.
- Gives an immediate, pleasant sensation of relaxation.
- Leaves the skin soft and silky to the touch..

Active substances

COCOANFODIACETATE DISODIUM: A very mild surfactant, helps to mix the water with active substances so that oil and dirt can be rinsed away. It also has the ability to form and stabilize foam. This ingredient improves the appearance and gives a feeling of elasticity to the skin after rinsing.

COCAMIDOPROPYL BETAINE (CAPB): A synthetic surfactant derived from coconut oil is used as a surfactant, emulsifier and thickener. It is very delicate, skin-friendly and also has antiseptic properties.

CITRUS AURANTIUM BITTER: The extract of bitter orange blossom, has flavoring, tonic and antiseptic properties, and stimulates microcirculation. It has regenerating and firming effect on the skin.

CITRUS MEDICA LIMONUM, CITRUS GRANDIS: Promotes physiological elimination of the horny layer, helps preserve optimal skin cell replacement. It has antiseptic and revitalizing properties.

Instructions for use

Apply with your hands or a sponge an adequate amount of the product to the whole body, massage and rinse with water, repeat if necessary.
