

CLEANSER

AHAs 8%

Cleansing Gel
Normal Skin

Segment

HOME SKIN CARE: Physiological cleanser.
Code D03, Vol. Flacon 150ml.

Product structure

Cleansing gel, SLS-SLES- free.

Product characteristics

CLEANSER 8%: Is a high quality cleanser without SLS indicated for cleaning normal skin. It is composed of a mixture of valuable and delicate surfactants together with specific active substances. Their interaction enables a deep and optimal cleaning of the skin without altering the surface delicate hydro-lipid film and regulates the stratum corneum permeability barrier homeostasis.

Benefits

Allows a complete and deep removal of all impurities deposited on the skin, sanitizing and preserving the delicate balance of the hydro-lipid film. After rinsing off, you can sense a feeling of cleanliness, freshness and softness.

Active substances

AHAs COMPELX: Antioxidant, sanitizing, moisturising and compacting properties. It helps to remove dead cells from the skin surface.

TREALIX COMPELX: The unique synergy of Trehalose with amino acids and hydrolyzed vegetable protein reinforces the skin barrier and stimulates the composition of NMF (Natural Moisturizing Factor).
