

CLEANSER

AHAs 9%

Cleansing Gel
Oily and Acne Prone Skin

Segment

HOME SKIN CARE: Physiological acne and oily skin cleanser.
Code D04, Vol. Flacon 150 ml.

Product structure

SLES- SLS free cleanser gel.

Product characteristics

CLEANSER Strong 9%: Is a cleanser without SLS, rich in bio-functional substances for optimum cleaning of oily, mixed, impure and acne skin. Delicate and complete removal of excess sebum and impurities is accompanied by antiseptic action and cleansing, causing no alteration of the hydro-lipid film.

Benefits

It eliminates excess sebum without causing the rebound effect, helps to normalize the excessive dryness and thickening of the S.C, eliminates the accumulation of cellular debris in the pilo-sebaceous ducts, cleans the skin perfectly respecting and balancing the hydro-lipid film, has action sanitizing the skin surface.

Active substances

AHAs: This ingredient reduces corneum cell cohesion between corneocytes, restores a physiological epidermal cell turnover, prevents the formation of comedones, helps remove blackheads.

AZELAIC ACID: Inhibits DNA synthesis of keratinocytes and combats micro-comedones, shows antimicrobial activity against P. acnes, counteracts hyperpigmentation resulting from inflamed acne, action sebum-balancing properties.

SALICYLIC ACID: Elimination of blackheads, sanitizing action.

BIOMINE COMPLEX: It has regulatory properties, prevents both excessive dryness and excessive oiliness, skin condition typically associated with combination skin. Skin cells are induced to regulate sebaceous gland function.

TREALIX: The unique synergy of Trehalose with amino acids and hydrolyzed vegetable protein stimulates the composition of NMF (Natural Moisturizing Factor).

MARIGOLD + WITCH HAZEL: It has surface soothing, sanitizing and decongestants properties.
