HOMEO ROSE SERUM

Anti-Couperose
Anti-Inflammatory
Anti-Reddness

Segment	**PROFESSIONAL SKIN CARE:** Serum. Code P22, Vol. Flacon 30 ml.
Product structure	Easily absorbed anti-allergic serum containing no parabens. Allergen-free fragrance.
Product characteristics	**HOMEO ROSE SERUM:** Product designated for professional care – the skin with couperose, irritated red areas ofthe face with acne spots. The cream formula has been developed in such a way that all the ingredients by interacting with one another can influence different aspects of skin problem and favour skin normalisation. The product contains a mixture of active substances that facilitate normalisation of inflammatory processes, reduce the expansion of blood vessels and microvascular permeability, help to strenghten capillary walls and decrease skin sensitivity to changes in temperature.
Benefits	• Effectively prevents the couperose problem. • Normalizes extensive microcirculation extension. • Thickens capillary walls. • Clearly reduces redness, including chronic redness. • Helps to prevent acne development. • Reduces skin sensitivity to temperature changes. • Strengthens the skin barrier.
Active substances	**VPG-FACTOR S15- exclusively Natinuel:** Biomimetic complex, being a derivative of growth factors. Allows to achieve the complete vascular rebuild, has an anti-inflammatory and unsensitized effect, allows to save and recover integrity of capillaries, improves oxidation of the cells, increases the sensitive skin's tolerance threshold, decreases the skin reactivity for various types of stimuli. **REGU-COMPLEX:** Reduces red colouration of the skin, prevents irritations, blocks protease release. With its extraordinary soothing properties, it reduces telangiectasia condition. **CRYSTAL SKIN 1000:** Dermocompatible formula containing lipids from extracellular matrix of cornified layer creates a wide cross-link area, which improves transpidermal release of soluble factors, and favours the integrity of skin barrier.
