Product characteristics

MANDO FERUL 45: An innovative professional product with broad spectrum efficacy, based on mandelic acid and ferulic acid, known for their numerous revitalizing properties, antioxidant, bioprotective, smoothing and sanitizing. It is indicated for all skins types, even the most delicate and sensitive and can be applied immediately before or after a tanning lamp and sun exposure. It is a particularly active without causing inconvenience such as burning and stinging. It immediately brings out the brightness, smoothness and firmness of the skin. It is also highly suitable for treating acne and uneven pigmentation of the skin.

Benefits

- Revitalizes the physiological process of epidermal cell turnover.
- Improves skin texture.
- Strong action bio-protective cellular.
- Antioxidant.
- Strengthens the skin barrier Has a strong smoothing action.

Active substances

MANDELIC ACID: Reshapes the epidermal cell turnover, has also compacting and sanitizing action. It evens out the skin colour, gives your skin an instant glow and increases cellular energy.

FERULIC ACID: Has antioxidant properties (increases the power of antioxidant vitamins C and E), is a protector of cellular DNA, exhibits anti-inflammatory activity (prevents activation of NFF-kappa B), regularizes (inhibits the action of tyrosinase, stimulates melanogenesis) and exhibits photoprotective activity (increases effectiveness of other sunscreens)

PHYTIC ACID: Antioxidant, reduces lipid peroxidation. It also has chelating properties.
