

MIX STRONG 20

Double Action
Clean and Peel
AHAs 20%

Segment

PROFESSIONAL SKIN CARE: Cleanser -scrub.
Code P05, Vol. Bottle 100 ml.

Product structure

Milky gel with microgranules.

Product characteristics

MIX STRONG 20: Is an innovative multi-action product which allows a delicate peel while simultaneously cleansing the skin thoroughly. Blackheads and dead cells are easily eliminated from the skin surface, the skin immediately regains smoothness and uniformity, thus creating an ideal basis for performing anti-aging, acne and hyper-pigmented spots treatments.

Benefits

- Cleanses the skin perfectly.
- Dissolves blackheads.
- Removes excess sebum.
- Delicate micro abrasion of stratum corneum cells.

Active substances

COCAMIDOPROPYL BETAINE: The Cocamidopropyl Betaine (CAPB) is a synthetic surfactant derived from coconut oil used as a surfactant emulsifier and thickening agent, it is very delicate, does not irritate the skin and also has antiseptic properties.

YEAST WELLS: Removes the anomalous skin shine, arising due to the presence of excess sebum, facilitates the removal of all skin impurities, helps to normalize sebum production.

MICROGRANULES: Delicate mechanical action that facilitates the elimination of dead cells from the skin surface. A light scrub combined with cleansing and foam which softens the skin.

LACTIC ACID-GLYCOLIC ACID: They reduce the thickness of the stratum corneum interacting on the links between the corneocytes and facilitate the penetration of other active ingredients. They contribute to the perfect and deep cleansing of the skin.
